

# 1SVR011705R2100 ABB Relay New and Original Converter

|                         |                                         |
|-------------------------|-----------------------------------------|
| Model                   | 1SVR011705R100                          |
| Brand                   | ABB                                     |
| Category                | <a href="#">Siemens HMI Touch Panel</a> |
| Product Series          | CC-E/STD                                |
| Function                | Signal Conditioning                     |
| Input Range             | 0 to 10 V, 0 to 20 mA                   |
| Output Range            | 0 to 10 V, 0 to 20 mA                   |
| Power Supply            | 110 ? 240 V AC                          |
| Operating Temperature   | 0°C to +60°C                            |
| Installation Type       | DIN Rail                                |
| Signal Conditioner Type | Isolation                               |
| I/O Type                | Analog                                  |
| Number of Channels      | Number of Channels                      |
| RoHS Compliance         | Compliant                               |

## Note:

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about 1SVR011705R100. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!
