

# Brand new AB module 1783-ETAP1F

|                       |                                                             |
|-----------------------|-------------------------------------------------------------|
| Model                 | 1783-ETAP1F                                                 |
| Brand                 | AB                                                          |
| Category              | <a href="#">AB PLC</a>                                      |
| Manufacturer & Model  | Allen-Bradley (Rockwell Automation), 1783-ETAP1F            |
| Product Type          | Managed Industrial Ethernet Switch                          |
| Port Configuration    | 3 x 10/100 Mbps Copper RJ45 Ports                           |
| Network Features      | Supports Device Level Ring (DLR) protocol                   |
| Power Supply          | 24V DC                                                      |
| Power Consumption     | Maximum 3W                                                  |
| Enclosure Protection  | IP20                                                        |
| Operating Temperature | -40°C to +70°C                                              |
| Data Transfer Rate    | 10/100 Mbps, auto-negotiating per port                      |
| Status Indication     | LED indicators for power, network status, and port activity |

## Note:

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about 1783-ETAP1F. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!
