

mitsubishi GT15-J71E71-100 touch screen new

Model	GT15-J71E71-100
Brand	mitsubishi
Category	Mitsubishi HMI Touch Panel
Product Model	GT15-J71E71-100
Product Type	Ethernet Communication Unit
Compatible GOT Series	GT15, GT16
Network Type	Ethernet (100BASE-TX)
Connector Type	RJ45
Protocol	Supports MELSOFT connection and SLMP (MC protocol)
Simultaneous Connections	Capable of simultaneous communication with multiple FA devices from different manufacturers
Data Transmission	Enables high-speed data communication with programmable controllers (PLCs) and other factory automation equipment
Primary Function	Expands the network connectivity of compatible GOT series graphic operation terminals
Application	Used to build integrated systems for monitoring and control in industrial settings

Note:

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about GT15-J71E71-100. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!
